Debriefing Information
Dynamic Making Projects
Level 4 Dissertation Project
Claire Williamson

The aim of this experiment was to evaluate the design and implementation of the "Making Projects" tool. I wished to find out how you interacted with the tool, and your opinions on its accessibility. The data that I collected with your permission, is an audio recording of the evaluation. This recording will be stored securely, transcribed and made anonymous, and then deleted no later than the project submission deadline (**Friday 31ˢᵗ March 2023**).

Please ask any questions, or give any comments about the experiment.
Please take a note of my email address and the email address of my dissertation supervisor, and let us know if you have any further questions about this experiment.
Thank you very much for your help.

Contact details: Claire Williamson 24644064w@student.gla.ac.uk
Dissertation supervisor: Dr Stephen Lindsay stephen.lindsay@glasgow.ac.uk
